SPRINGS & PRESSINGS

Part of the Knight Group
Supplying Manufacturers around the globe
for over 80 years

"Take advantage of our unmatched versatility – from handling almost any alloy, to sourcing material or integrating your existing materials, we're here to cater to your specific needs."

Custom Tooling Designed for you

Custom Tooling for Flat Springs, Clips and Metal Pressings
Sterling Springs make all the tooling for your metal pressings, custom flat springs, clips and wire forms in our own state-of-the-art facility

Business Partnership for your Spring Requirements

We see our businesses as a true partnership so we'll also work with you to develop prototype samples springs and clips for new products. With the benefit of decades of experience in the industry, Sterling Springs produce sophisticated custom springs, clips and pressings requiring little or no tooling.

Complex Tool Design for Springs and Clips to your Specification

And even if we don't have exactly the tool we need, Sterling Springs' in house technology enables us rapidly to design and make complex tools, allowing us to offer more competitive prices. Our in-house toolroom can produce high quality bespoke tooling to produce custom parts in large or small quantities. Our tools are made to your specification.

No Project Too Big Or Too Small

We produce parts to match the requirement of the customer, so whether its 10s or 1000s of parts, Sterling Springs has the range of manufacturing equipment to suit all of your needs. Our highly skilled personnel can manufacture small quantities of components where no tooling is required for pre-production runs, prototypes and very small batches.

We can also produce large batch runs through bespoke made dedicated progression tools, which are designed and manufactured in our own tool room.

Once the tool is tested, production can start on our range of Power Presses.

"A Team Approach to Custom Springs and Pressings. We are always here to help you with any queries regardless of being large or small."

Supplying & Manufacturing for over 80 Years

Our expertise and skill place us right on the leading edge of manufacture and delivery, making us the precision spring and pressing suppliers of choice to a huge range of industries. Yet we never forget our roots – because we believe in using modern production techniques whilst managing perfectly to blend tradition with technology. Giving you great value for money and an exceptional service.

INDUSTRIES AS DIVERSE AS DEFENCE AND MEDICAL EQUIPMENT MANUFACTURERS HAVE TURNED TO US AS THE LOGICAL CHOICE FOR CUSTOM SPRINGS, CLIPS AND PRESSINGS. HERE ARE JUST A FEW EXAMPLES OF THE SECTORS WE WORK IN

Aerospace & Defence

Powder Coated and Plated Headbands
